# High Capacity Multi-Function Linear Diffuser Supply/Supply-Return/Supply-Return- Vertical Discharge

Airguide Model SRDB is a black painted 24 gauge steel linear diffuser that offers high functionality and flexibility. The unit is available with the following configurations: 1. SRDB 10 – Supply diffuser for horizontal air discharge. 2. SRDB 20 – Supply diffuser with a vertical discharge section installed in the center of the diffuser. 3. SRDB 30 – Supply/Return combination so that return air can be returned to the ceiling return

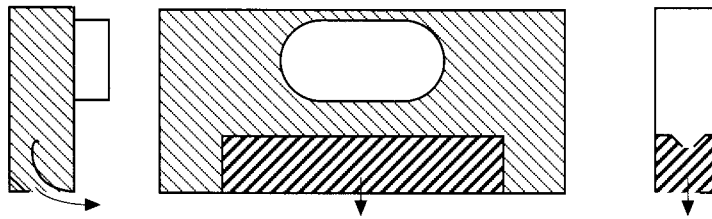

plenum. 4. SRDB 40 – Supply/Return with vertical discharge.

All models may be either non-insulated or insulated (internal or external). Flat black is the standard finish. All models are suitable for T-bar installation in sizes from 24"-60". Narrow T-bar models are available. Ceiling manufacturer and T-bar width must be specified if other than 3/4" T-bar. See page LD-24 for reference information.

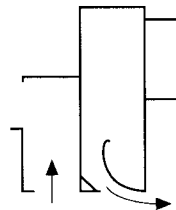

## SRDB 10 – Diffuser for horizontal air discharge

## SRDB 20 – Diffuser for horizontal air discharge in conjunction with vertical discharge

## SRDB 30 – Diffuser for horizontal air discharge with return air slot
