model **PS-2-NRF**

Adaptor frame model PFT in the accessory section may be used with this product in order to install this frame on a plaster or similar ceiling.

PS-1-NRF

test data – TD-29

product description

The model PS-1-NRF is identical to the PS-1 with the exception that the face cannot be removed. A perfect air seal is achieved by crimping the face and back to the

one-piece joining frame. This model is available with either round or square neck. Pattern controllers must be adjusted from the rear.

| Model | Grid Size | Type of Neck |
|----------|-----------|--------------|
| PS-1-NRF | 24 x 24 | Round |
| PS-2-NRF | 24 x 24 | Square |

If on the round-neck units the butterfly damper option is chosen, the suffix "BFD" should be added to the unit. As an example: **6-PS-1-NRF-BFD**.

If on the square neck units the opposed blade damper is chosen, the suffix "OB" should be added to the unit. As an example: **8x8-PS-2-NRF-OB**.
