

RETURN GRILLES AND REGISTERS SERIES

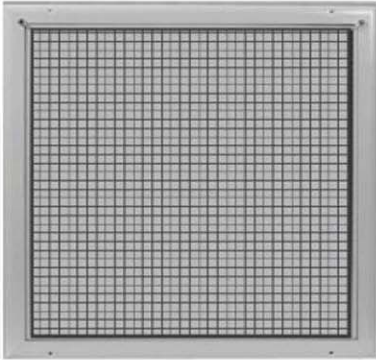

EGG CRATE RETURN GRILLES AND REGISTERS

MODELS: RF-2-AG, RF-2-AG 1X1X1, RF-2-P

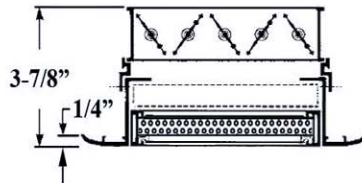

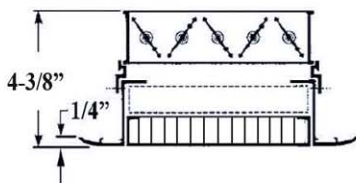

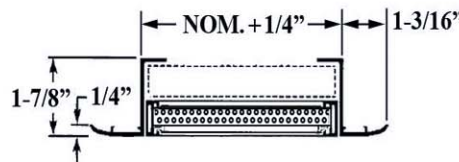

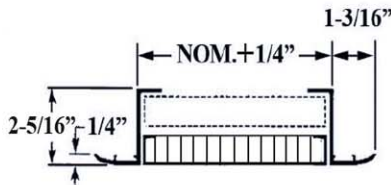

SUSTAINABLE EXTRUDED ALUMINUM

Dimensions are in inches (mm)

RF-2-AG

RF2P

- RF-2-AG**
Return Filter Grille with Aluminum Grid.
- RF-2-AG 1X1X1**
Return Filter Grille with 1X1X1 Aluminum Grid.
- RF2P**
Return filter register with perforated holes and opposed blades damper.

DESCRIPTION:

1. The model RF-2 is assembled in a two-part system: one is the mounting frame that serves as a retainer for the filter, the other is the core that provides easy access to the filter. The core swings in and out of the mounting frame by means of two concealed pivot pins.
2. The frame has a typical wall thickness of .050.
3. The frame mounting holes are dimpled, allowing for a counter-sunk fastener head appearance.
4. An optional opposed blade damper is attached to the return grille with positive-locking spring clips. It has the same aluminum construction and is screwdriver-operated through the face of the unit.
5. Available in clear anodized, white or a variety of custom colors.
